Prof. A.R. Brink, chairman
Department of Genetics
University of Wisconsin
Madison, Wisconsin
Dear sir:

Next fall I am anxious to begin work toward a Ph.D. in genetics at the University of Wisconsin with Professor Lederberg. At present I am working on my master's degree at Indiana University with Professor H.J. Muller, with minors in bacteriology and biochemistry. My undergraduate work was also done here, with a major in zoology, and minors in chemistry and mathematics.

In order to finance my studies at Wisconsin, provided of course that I am accepted, it will be necessary for me to have some sort of aid such as a research assistantship or a teaching fellowship. Could you please send to me the appropriate forms to fill out for application for such work? In the case that there are no official forms, I will be happy to send transcripts of my record, references for recommendations, and any other information, upon your request.

Sincerely,

Helen Louise Byers
